

Home Matters Supporting People Limited

Assessment/Referral Form (Dudley Service)

WHAT IS HOUSING RELATED SUPPORT?

This is support that is provided to people to prevent them from becoming homeless or having to be admitted into hospital or residential care when it can possibly be avoided. A support worker works with the person to develop a range of skills that will give them the confidence and independence to live successfully in the community. The support can include help to learn how to maximise their income, budget for bills, cook healthy meals and access other services such as doctors, dentists and social activities. The support offered to each person is unique to them and their particular needs. The support encourages people to learn skills to help themselves and give them greater independence. The support does not cover areas such as personal care (washing, bathing) but it is possible, in some cases, for individuals to receive both housing related support and statutory funded care/support.
